## THE QUALITY GOES ON FOREVER.

Chances are, you spent a lot of time choosing just the right furniture for the inside of your home. But what about the outside? Probably not so much. That's okay. Sometimes, outdoor furniture is barely an afterthought. In some cases, it's barely furniture. We're here to change all that. Since 1995, we've been crafting rugged, heirloom-quality outdoor furniture from recycled materials—furniture that's warrantied for 35 years; resists fading, peeling and cracking; and requires no winter storage whatsoever. That's pretty close to forever. And, as long as you're outdoors, we'll keep designing and building long-lasting products to make it easier to enjoy every minute of it.

*Here's* to kicking off your quest for an amazing outdoors! To help in your journey, here's a simple guide. Happy outdoor-ing!

**S**INCE DAY ONE, we have been family owned and operated, manufacturing our products and plastic lumber right here in the USA.

It all starts with our **EXTRAORDINARY PEOPLE**. With over 40 years of design expertise and plastics-engineering experience, they are masters at crafting furniture of impeccable quality and style.

In their hands, our **TOP-QUALITY MATERIALS** are transformed into timeless works of beauty and functionality, unsurpassed by any other outdoor furniture on the market.

The material is synthetic, furniture-grade lumber made from recycled high-density polyethylene, known as HDPE. Recycled milk and water jugs, the

# PROUDLY OVERB

main ingredients, are combined to our own rigorous specifications, which include **NO FILLERS** whatsoever.

While it is as dense as wood, our plastic lumber is naturally flexible and molds to your body for exceptional comfort. Plus, it's **COLORFAST**, with colorant and an added UV inhibitor saturating each piece, minimizing fading for years and years to come.

Our **UNIQUE COMBINATION OF FURNITURE EXPERTS AND EXCEPTIONAL MATERIALS** makes our maintenance-free outdoor furniture unequalled in the marketplace. It takes extra steps, extra care, extra thinking, and extra plain ol' work, but we wouldn't do it any other way . . . nor does anyone else.

*We coat our all-stainless-steel hardware not once but twice with corrosion-resistant, color-complementing Xylan, so it will last just as crazy long as the furniture it fastens.*

# IN SHAPE.

When you're ready to *Outdoor Magnificently* with our furniture, the centerpiece of your upgrade will likely be a new table. But which one? We suggest starting with your typical *sitting scenario*: how many people will be around the table on a regular basis? And select accordingly. A nighttime outdoor scene featuring a wooden bench, string lights, and candles. The scene is set in a wooded area with trees in the background. A wooden bench is positioned on the right side of the frame. In the foreground, several lit candles are placed on the ground, creating a warm glow. String lights are strung across the scene, adding to the ambient lighting. The overall atmosphere is cozy and romantic.

Even with the most well-crafted table in the universe (which, in our humble opinion, we make), if the chair you pull up to that table is inferior, you might as well be sitting on a stump. As you might expect, we **do** craft seating that's built to our stringent standards for durability and maintenance-free amazingness (see call outs at right). And the best part? We make seating in almost every imaginable shape and size, so you're sure to find **exactly** what you need, and maybe a few that you didn't even know you needed!

## OUR GLIDERS:

### *Durability in Motion.*

We like to say that the quickest diet around is sitting in one of our many styles of Gliders: because you'll be weightless in no time. But there's plenty of brawn behind that effortless floating motion. With a sturdily built glide mechanism (shown at right), you'll glide through the years, maintenance free. Our gliders come in all of our chair back styles (including Mission), and three configurations: chair [A], bench [B], and tête-à-tête [C]. ***To see every glider style and configuration, please see Pages 48 & 49 in "The Goods" section.***

Turns out, when you give two chairs a subtle turn inward, an astonishing phenomenon occurs: conversation. Not tweeting. Or snap-whatever-ing. But genuine talking and sharing between two human beings who happen to both be there in person. That's the genius behind our unique tête-à-têtes. And, to really give all of your guests something to talk

about, we added a convenient table to hold drinks and goodies—because who has time to sip or munch when they're deep in a tête-à-tête?

A serene landscape featuring a calm body of water reflecting a warm sunset. In the foreground, a piece of torn, aged paper is layered over the scene, containing the word 'Serenity' and its definition. The background shows a dark shoreline with trees under a soft, orange-hued sky.

# Serenity

(suh-ren-i-tee) noun

1. The absence  
of trouble.

Indeed.

A grey Adirondack chair is positioned on a sandy beach, facing a calm body of water. The sun is setting in the background, creating a warm, golden glow that reflects on the water's surface. The sky is filled with soft, orange and yellow clouds. In the distance, a small dock with two white posts is visible on the right side of the water. The chair has a classic design with a high, curved back and wide armrests.

**CARE AND CLEANING:** Water will remove most soil. You may use any non-abrasive cleaner, including bleach if you feel it is necessary to sanitize. Pressure washing (or a trip to the car wash) is recommended for white furniture.

Minimal assembly required on orders delivered outside of our delivery areas. We reserve the right to modify or discontinue any design, price, term, color, or product offering without prior notification. All orders will ship F.O.B. factory unless otherwise noted and returns may be subject to a restocking charge. Some operating hardware available with limited warranty.
